

# Locked Into Green

Graham Parker

I find I fall into each night  
What passes for a dream  
But all I see are pinks and blacks  
And I don't know what they mean  
My opponent's got the edge  
But his face just can't be seen  
And I'm locked into green  
I been up since 8 o'clock  
Smokin' endless cigarettes  
And I'll be at the table  
As the bookies take their bets  
A shot of drink to steady nerves  
And I'll wipe that table clean  
'Cos I'm locked into green  
Reds and blues  
Yellows, greens and browns  
If I keep my eye in  
I will put them down  
There's other ways of life out there  
But there's nothin' they could mean  
'Cos I'm locked into green  
I'm locked into green  
I'm locked into green  
I'm locked into green
