The Dance

Poco

Spinnin' around and around in a circle
Once you sit down you start it all over again
Laughin' so hard you lose all track of time
So shuffle your feet, follow the beat on downAnd when the dance is over who will your partner be?
Will both of you be takin' the chance to dance again?
The chance to dance againEveryone's slippin' away to the rhythm
Lookin' to find someone to show them the light
So stare at the floor and pretend
You don't notice it's getting later, later tonightAnd when the dance is over who will your partner be?
Will both of you be takin' the chance to dance again?
The chance to dance againCan you hear the sound of music playing?
Can you hear the sound of voices saying?
The night is young, there's no need to hurry
So take your time, you don't have to worryGo on and dance, go on and dance
Dance now darlin', you'll find romance waitin' just for you
There is moonlight if you care to stop and see it through
Go on and dance, go on and danceCan you hear the sound of guitars playing?
Can you hear the sound of children saying?
The night is young, there's no need to hurry
So take your time, you don't have to worryGo on and dance, go on and dance
Dance now darlin', you'll find romance waitin' just for you
(You know that it's true)
There is moonlight if you care to stop and see it through
(It's there for you)
Go on and dance, go on and dance
(Go on and dance)Never gonna stop
(Never gonna stop dance, dance, dancin')
Never gonna stop
(Ain't never gonna stop dance, dance, dancin')Never gonna stop
(Ain't never gonna stop dance, dance, dancin')
Never gonna stop
(Ain't never gonna stop dance, dance, dancin')Never gonna stop
(Ain't never gonna stop dance, dance, dancin')
Never gonna stop
(Ain't never gonna stop my dancin')And when the dance is over who will your partner be?
Will both of you be takin' the chance to dance again?
The chance toAnd when the dance is over who will your partner be?
Will both of you be takin' the chance to dance again?
The chance to
