Satellites

Quiet One

And If this is it,
Will you be my light,
And If this is it,
Will give me sight,
And if this is it,
Will you hold me tight,

Cus' we'll be all right, We need to touch the sky, So please don't cry, Your hand is safe in mine,

And we rely on satellites, We rely on satellites,

And if this is it,
Will you let me go,
And if this is it,
Will you find your gold,

And this is it,

Will we both grow old,

Cus' we'll be alright,

We need to touch the sky,

So please don't cry,

Your hand is safe in mine,

And we rely on satellites, We rely on satellites, And we rely on satellites, We rely on satellites,

And if this is it,
Will you be my light,
And if this is it,
Will hold,
Me,
Tight
