

Paulo Mendonca - Respect

Paulo Mendonça

I met this girl once
and everything was so nice
me love any day
and everything was paradise

after a while the weather changed
she got nasty for every day
I said listen I'm now baby
listen good to what I say

I want respect
girl I want respect
babe I want respect
you know I need respect

I don't like all the games
that you play with me
why did you have to go
and change personality

If you show me how you are
those riots from the start
then I would easily know
just right who you are

I want respect
babe I need respect
you know I want respect
girl I want respect

hit me
baadap dapdap daadap dap daadap
wououh

I met this girl once and
and everything was so nice
me love any day
and everything was paradise

after a while the weather changed

she got nasty for every day
I said listen I'm now baby
listen good to what I say

I don't like all the games
that you play with me
why did you have to go

-

I want respect
girl I want respect
babe I need respect
babe I need respect
babe
you know I want respect
babe I need respect
come on babe
respect
come on
you know I want respect
yeah
babe I want respect
you know I want respect
babe
yes I want respect
you know I want respect
tell me
babe I want respect
I need man respect
babe
you know I want respect
