Dive In (GusGus remix)

Quarashi

Someday I will dive me in
Someday I will take a spin
Someday I will make it right
Someday I will stop the fight
It has been thought
It's been thoughtI found a God that can teach
Take me along, once again on that trip
Bring it on and when I'm gone, bite your lip
Is it to good to be secure?
Maybe I should
(I think I should find the cure)
It's been thought beforeI found a God that can teach
Someday you will dive in
Someday you will dive in
It's been thought before
It's been thought before
