

# Cheatin's a Sin

Kitty Wells

(Billy Wallace) You're in the arms of another where you've no right to be

We've made vows together your love isn't free

You're making your plans now our love's gone with the wind

You're cheating on me dear and cheating's a sin. The love in your eyes dear for me has grown dim

I keep trying to hold you but my chances are slim

I might as well face it I'm just a have been

You're cheating I'm losing but cheating's a sin. --- Instrumental --- Though you are unfaithful you're still in my heart

You're in love with another you play a double part

Why don't you change dear for cheaters can't win

You'll never be happy for cheating's a sin. Can you honestly tell me our love isn't real

Just pick for your ownself I know how I feel

I'll carry your mem'ry though our love must end

You're cheating on me dear and cheating's a sin...
