

# Everybody Move It

**Teddy Thompson**

Sat in the corner  
You could pass for dead  
Get up on the floor, shake your headEverybody move it  
Everybody move itIf you'd rather be home  
You can leave right now  
This is a party, no frowns allowedEverybody move it  
Everybody move itBump and grind, have a good time  
Free yourself and lose your mind  
Now the party's pumping and the groove is on  
Grab the nearest body and move alongGo to the next if it don't feel right  
But have no fear, get down tonightEverybody move it  
Everybody move itBump and grind, have a good time  
Free yourself and lose your mind  
Everybody move it
