Cali Girls

R5

Drop top, sitting next to Cee-Lo
Pacific coast highway
This happens every dayAnd our song keeps playing on the radio
Like 20 times a day
Man this is so cray-zayI see you pretty ladies walking round in high heels in LA
What can I say?
Sexy shades, two piece, the girls are lookin fine today
It's getting hot you seeI like them Cali girls
Valley girls
Like the way they move
Love the things they do
Keep me up at nightI like them Cali girls
Valley girls
When they look at me
Not too hard to see
That a Cali girl is what I needCali girls valley girls
When they take you out
Make you scream and shout
Keep you up at nightI like them Cali girls
Valley girls when they look at me
Not too hard to see
That a Cali girl is what I needModel girls just hanging out at Venice Beach
The ones in magazines
They're hanging out with me (hanging out with me)
And you know she wasn't lying when she told you (uh-huh)
You know them Cali girls, they really rock my world ohShort skirts, So hot, lookin right in every way
What can I say?
Sexy shades, two piece, the girls are looking fine to say
It's like this everydayWhen you got Cali girls
Valley girls
Like the way they move
Love the things they do
Keep me up at nightI like them Cali girls
Valley girls
When they look at me
Not too hard to see
That a Cali girl is what I needCali girls valley girls let me take you out
Make you scream and shout
Keep you up at nightI like them Cali girls

Valley girls
Cali girls when they look at me
Not too hard to see
That a Cali girl is what I needI can't get those Cali girls out of my head
I can't get those Cali girls out of my head
I like them Cali GirlsCali girls
Valley girls
Like the way they move
Love the things they do
Keep me up at night
I like them Cali girlsCali girls
Valley girls
When they look at me
Not too hard to see
That a Cali girl is what I needCali girls Valley girls
Let me take you out
Make you scream and shout
Keep you up at nightI like them Cali girls
Valley girls
When they look at me
Not too hard to see
That a Cali girl is what I need
