

# Grand Illusion

## Eric Clapton

I saw you in a dream, it hit me like a bright light  
Flashing on a screen, visions of my whole life  
I used to chase the moment of desire  
Back to when my young heart burned like a fireIt was just a, nothing but a grand illusion  
Heart was quicker than the eye  
Nothin' but a grand illusion  
Legend in my own mindI held you in my arms till the other side of midnight  
Kept you in my mind, you got me through some long nights  
Standing on the threshold of desire  
Caught between the madness and the fireIt was just a, nothing but a grand illusion  
Heart was quicker than the eye  
Nothin' but a grand illusion  
Legend in my own mindIt was all a grand illusion  
Hand was quicker than the eye  
Nothin' but a grand illusion  
Legends in our own mindI used to chase the moments of desire  
Back to when my young heart burned like a fireIt was just a, nothin' but a  
It was all a grand illusion  
Nothin' but a grand illusion  
It was all a grand illusion  
Legend in my own mindIt was just a grand illusion  
Nothin' but a grand illusion  
It was just a grand illusion  
Legend in our own mind
