

The Saints

Citipointe Live

Verse 1:

In this cold dark place
Where confusion lay
Trying to keep me from
Your holy face
You will lift me up
Withdraw despair and doubt
Where our visions blurred
Let Your heart be heard

Verse 2

With clean hands pure heart
Your people stand for love
In all we say and do
May our lives speak truth

Pre Chorus

In love we are Yours forever
As we live, to love this world and sing

Chorus

We are Your saints we rise
Your word is truth and its life
We lift You up
We lift You up
As one we stand and unite
Our lips, Your praise be entwined
We lift You up
We lift You up

Bridge

Ill be your salt and Your light
All darkness will flee and hide
A city on a hill
Your love for all to see
