

# Metal Forces

[Joe Thrasher](#)

Battles burn the wrath of hell the force cannot be slain  
Men and steel we stand as one to fight on through the pain  
Soldiers die the blood runs red we bear the blackest hates  
Metal force now crack the sky and raise the seven gates

[Chorus]

Running wild shell shock cracks the beams  
Sweat and leather thrashing metal screams  
Battle cries the power racks they roar  
Blood and death upon the stage of war  
The metal forces

Haunting mist engulfs the stage we make the final stand  
Satan's troops attack as one and hold the death command  
Fighting hard with Axe and chain the flame it burns the night  
Metal storm the heavens fall we ride on seas of light

[Chorus]

Metal storm a fork of light raining from the skies  
Evil strikes across the land the metal forces rise

Darkness cast on blinded eyes this war cannot be won  
Sweat and blood hail from above as the battle rages on  
High on stage the end draws near we fight on through the pain  
Metal forces stand as one this power runs through veins

[Chorus]
