Shine a Light

Cults

(Verse 1)
Late at night alone
I was hoping you would show
Just waiting for you
Try to catch a light
Out here on my own
There ain't nowhere else to go
I've checked in all the places you could hide
Late at night alone
I was hoping you would come from behind
Cause I don't want to stay
Out here on my own
I was hoping you would show up behind
We're headed the same way(Chorus)
It's all I want
It's all from dreaming
To keep you here forever(Verse 2)
If I ever ride alone
I would never let it go
Or everyone could see how hard I tried
I've never been so bold
But these feelings let me go
I never could've dreamed you'd pass me by
The trail's gone cold
[?]
Shine a light
And lead me back your way
The story's that I've told
The curtains unfold
Make it by and make sure that it stays(Chorus)
