

# The Water (Red Demos) [Bonus Track]

## Feist

The telegraph cables hung  
The few can decipher who the message is from  
And delivering quietly  
'Cause some don't get much company  
The harbor becomes the sea  
And light in the house keeps it collision free  
Understand the lay of the land  
Don't let it hurt you  
Or it will be the first to  
The water  
The water didn't realize  
It's dangerous size  
The mountain  
The mountain came to recognize  
It's deep and rocky sides  
More than realized  
I'm pale as a pile of bones  
You hope for your babies and this is how they grow  
With batters knocked over  
The teeth bite the shoulder  
Watching the gray sky that's acting like a good guy
