

50 Candles

Boyz II Men

It's gettin' kinda dark already
Should I light 'em? Hey baby I'm ready, I'm oh so ready
I wanna make love to you, hey
Take 'em off, throw 'em down
Come here and let me feel what's in front of me The outside world is of no concern
Just let our bodies and the candles in the room burn
With a feverish passion uncontained Feels like one of those nights
Lady, I'm in need of love in a hurry
Fifty candles burn bright
And all is alright, as our bodies unite
Take our time, do it right Give me your hand, touch me right here
So good, want it more and more
Each moment your fingers linger all around As I kiss you in the place
Where your composure comes undone
And your mind runs
We'll make love 'til the sun completely rises Come play with me
Let me be the toy that fulfills your needs
'Cause I'm yours tonight
And you're all mine, baby Don't be afraid, let the feelin' take you away
To a world of ecstasy
Where all you got to do is be free
And give your all and all, now Feels like one of those nights
Lady, I'm in need of love in a hurry
Fifty candles burn bright
And all is right, as our bodies unite
Take our time, do it right Come and get this
Waited all my life for your touch and your soft kiss
And life will never be the same
While you moan and groan, I hear your voice call my name Holding your body like a plastic molding
Your soul I'll be controlling
As the candles burn, we toss and we turn
From night to day, all our pleasures we learn Come and play with me
Tonight's our night baby
Fifty candles burn bright
Come and roll with me, make love to me
Hold on tight, it's goin' to be a bumpy ride Feels like one of those nights
Feels like one of those nights
Fifty candles burn bright
Feels like one of those nights

Feels like one of those nights
Feels like one of those nights
Feels like one of those nights
Fifty candles burn bright
