

Colour of Your Jumper

Archie Roach

I remember when I was a lad, kicking a footie round' my back yard, me and the cousins, we tried to kick a goal.

Oh what a time we had, I said we played real hard, yeah we played with out heart and soul. cuz' its the best game in the world, for young and old.

Its my, football team (football team), yeah my, football team (football team). Now putting down a player is tryna' put him off his game. For my, football team (football team) yeah my, football team (football team). Now its the colour of your jumper, not the colour of your skin.

neighbors across the way, come over and play a game, kicking the ball on the house and out the cars. And when we start to play, you know I went insane, cuz' I thought I was a football star. And everybody came to see me, from near and far.

Man my, football team (football team), yeah my, football team (football team). Now putting down a player is tryna' put him off his game. For my, football team (football team) yeah my, football team (football team). Now its the colour of your jumper, not the colour of your skin.

Well you can put down a player, you can put down a team, but you can never put down who we are. You can never put down a young ones dream, of becoming a football star.

Yeah my, football team (football team), yeah my, football team (football team). Now putting down a player is tryna' put him off his game. For my, football team (football team) yeah my, football team (football team). Well its the colour of your jumper, not the colour of your skin.

Yeah its the colour of your jumper, not the colour of your skin!
