## Waterfall

## **Peter Frampton**

What a day, I'd like an action replay Won't you hand me the chocolate tray? Turn around the film has unwound Yeah, don't make a sound Baby, it's been so longWalk away after stacking the hay I'd like to invite you, just lead me astray Waterfall, down on me Raining inside, I'm weak in the knee Baby, it's been so longAnd I can't sit still now I was born standing up I can't look back now I'm still looking upTequila train, come on, numb my pain It's salt and lime that send you insane Just a dream, ooh, my lake and my stream All so plain like a Waddington game Baby, it's been so longAnd I can't sit still now I was born standing up I can't look back now I'm still looking upAnd I can't sit still now I was born standing up And I can't look back now I'm still looking up
