Get Us in Trouble

Milton Patton

[Verse 1]
[?]in between [?], girl
What happened to your clothes, girl?
I hope you know what you're getting into
Cause baby, I can rock your world

[Verse 2]
Lipstick on my cigarettes
Oh girl, you're turning me on
And once I'm going, baby girl
There ain't no turning me off
[Chorus]
You're gonna get us in trouble
I'm just saying, girl, it's fine with me
Cause I can lay your body down
Just hug and love and rub you all over this beach
Or we can go inside of town
Find a bench in a park
Cuddle up, make a scene
You're gonna get us in trouble
If it's fine with you, then it's okay with me

[Verse 3]
Tequila through the straw, girl
[?]
No need for calling a taxi
Cause by the way that you're acting
Won't make it out of this bar, girl

[Verse 4]
Kissing in traffic, backseat of a taxi
Red bottom heels in the air
The cab driver don't care
He ain't paying for the taxi fare

[Chorus]
You're gonna get us in trouble
I'm just saying, girl, it's fine with me
Cause I can spin your body round
Just hug and love and rub you all over this street

Or we can go outside of town
Find a field, make some [?]
Play in mud, cause a scene
You're gonna get us in trouble
If it's fine with you, then it's okay with me

[Bridge]
[?] bed to the couch, then the floor
The neighbor's yelling keep it down next-door
I'm sorry, but this girl I can't ignore

[Chorus]
You're gonna get us in trouble
I'm just saying, girl, it's fine with me
Cause I can lay your body down
Just hug and love and rub you all over this beach
Or we can go inside of town
Find a bench in a park
Cuddle up, make a scene
You're gonna get us in trouble
If it's fine with you, then it's okay with me
You're gonna get us in trouble
Girl, if it's fine with you, then it's okay with me
