

# Blame It on Me

## Striking Matches

You've been somewhat hard to find

it ain't me whose askin why  
little miss secret sneakin out  
you've got people talkin now  
uhoh

an if you ever need at all  
somebody to take a fall,  
count me in i'm goin down,  
anything to save the crown  
ohhh

Queen of all I want to know  
chorus

You've got me all twisted up,  
My heart beats poundin like a big bass drum  
I've got you doing all kinds of crazy things...

Like stayin up real late  
takin long weekends  
makin' all your friends wonder where you been.

Like dancin in the streets  
until 3 am

and the very next night do it all again!  
sounds like someone loves to steal your company,  
well, baby you can blame it on me!  
mhmmYes I am a guilty man,

caught me here with two red hands.

call me in to serve my time,  
gettin lost inside your eyes  
oh oh oh

ain't no better place I know  
chorusAn I got you and i'll agree

that's some kinda modern mystery,An you got me doin all kinda crazy things

Like stayin up real late....  
chorus
