

Love to Burn

Cory Lee

i can live without you im happy by myself
but you get to me
you make me feel like there is no one else
what cha doin leaving hearts in ruins
can't cha see for us to be that just wont fly with me
Slow down lets get in right make it last lets start tonight
have you got love to burn? kisses for days?
don't you wanna grap onto something real and never let it get away
i don't have love to burn time to waste cuz i've waited for to long for this spark to become a flame
and if it comes true i only have love to burn for you
i see ya through
if i was sure you'd feel this way
for me its gotta be much more than anything we say
our love to ever last i need to know its not just touch and go
that you are here to stay
here to stay
that you are here to stay
