

# Looks Just Like the Sun

## Broken Social Scene

Looks just like the sun  
Looks just like you  
Looks just like the sun  
Looks just like it Well, he looks just like the sun  
Looks just like you  
But I'm breathin'  
Thinking one Heart is pounding  
In his chest  
Reaches suddenly  
For his gun Ship is sailing  
In the west  
Flower that could  
Be his fun Tree of families  
On his head  
Weary red  
Split open eyes I'm on the corner  
Thinkin' about my bed  
He just stands still  
And signifies Looks just like  
It looks just like it  
Looks just like the sun  
It looks just like it Looks just like the sun  
And It looks just like it  
But I'm breathin'  
Thinking one Gold and red  
The colors change  
As you can't forget Turning back, you know  
I thought I knew  
Thought I knew someone You better check your words  
I think it's time you left  
To me, it's darkness still  
It's obvious to everyone Darkness still  
It's obvious to everyone  
Still it's obvious to every Well, it looks just like the sun  
Looks just like it  
Looks just like the sun  
Looks just like it Looks just like the sun  
Looks just like it  
Looks just like the sun, say
