

Cant Let You Go

Fabulous

Baby girl
You know my situation
And sometimes I know you get impatient
But you don't put to on a show to get patience
Take it to court and go through litigations
And I respect ya gangsta
Treat you like a princess
And put something on your neck to thank ya
She's my pinch hitter
When the starting lineup ain't playing right
I come off the bench wit her
It might sound like I'm gassing ya
But it took time to get from the back seat to the passenger
We been creeping and sneaking
Just to keep it from leaking
We so deep in our freaking
That we don't sleep on the weekend
Wifey
A little bit uptight
Wondering why he coming home in the middle of the night
It'll be alright if y'all bump heads it'll be a fight
But I said it'll be alright I really want to be with you (be with you)
But I gotta be real with you (real with you)
I can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go
Your the one I want in my life (want in my life)
Already got a wife (got a wife)
Can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go You ain't ever step out of line
Or get out a pocket
So I made sure canary sent out your locket
To protect you, I'll get out and cock it
And you know the barrel of my gun is big enough to spit out a rocket
Oh, you gonna play dumb if cops do come through
I gotta keep the top up if my drop do come through
But I know the boutiques and the shops you run through
So I cop her one, and cop you one too

You always get a daily page, weekly ring
Plus you ain't too shy to do them freaky things
I ain't gotta put a band on your finger
I worry about you telling the whole world I'm your new Allen Springer
At first you were something I denied
Something I would slide
Just do something in the ride
But shorty
There's something that you provide
Cause the entree ain't as good without something on the side I really want to be with you (be with you)
But I gotta be real with you (real with you)
I can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go
Your the one I want in my life (want in my life)
Already got a wife (got a wife)
Can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go Uh oh, I might be leaving the earth soon
My girl gonna kill me if she smells the scent of your perfume
Its gonna be a clip towards if I go back
With stains of your lip gloss on my throwback
She won't care if I'm a platinum rapper
If she catch me with an empty magnum wrapper
So keep it on the down low call the carsely
You seen what happened with Mr. Big and R. Kelly You know I get from you
Anytime this chick is there for you
Feelings I'm'ma share wit you
Which makes it a Lil Mo clear for you I really want to be with you (be with you)
But I gotta be real with you (real with you)
I can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go
Your the one I want in my life (want in my life)
Already got a wife (got a wife)
Can't leave you alone (lone)
And I know I'm living wrong
But I can't let ya go
