One More Try

Beverley Knight

What kind of fool throws away a chance
That may never come again?
The chance to forgive and forget
What good is pride when it clears the room?
Leaves you standing on your own
I'm not so proud that I don't know
No, I don't want to leave and just say goodbye
Don't want to miss what I left behind
Will you stay with me now, give me one more try
One more try?

I know sometimes I don't say enough
Don't seem to let my feelings show
But I can say honestly, I know
I remember when faith was all we had
We dreamed together
And dreams are something that I still have
What kind of fool closes all the doors
And says they're feeling all alone
I've been alone enough to know
Yes, I know
