

Bullets

Augustana

Come, fly down like a singing bird
Sings your name, I am still the same
Black and white, no, you're not to blame
Holly sweet, put me down to shame
Lights in the car, in the park
I'm falling on my face, I know who we are
And I ain't looking down for the rest of the night
A bullet in my head ended late last night
Jack and coke, please take off your coats
Come and smile, please stay here a while
Come and dance, shuffle with a glance
When you're gone, bring in for the dawn
Shaking in the car with the gun in her hands
Falling over love and a sweet romance

And I ain't never thought it could come down to this
A bullet in my head with the sweetest kiss, it's in my head
It's in my head
My head, I'm now
Shaking in the car with the gun in her hands
Falling over love and a sweet romance
And I ain't never thought it could come down to this
A bullet in my head, my head, my head
It's in my head
It's in my head
Now, it's in my head
It's in my head
Now, it's in my head
