

# Come Back Down

Greg Laswell

Come on now you're good friends are here waiting this one out

You've gotta come back down

You've gotta come back down

Look around you you're the only one dragging this out

You've gotta come back down

You've gotta come back down

All of your wallowing is unbecoming

All of your wallowing is unbecoming

You've gotta take it on your own from here

It's getting pathetic and I'm almost done here

You've gotta take it on your own from here

It's getting pathetic and I'm almost done here

What you set out to kill off has been gone some time now

You've gotta come back down

You've gotta come back down

Head out any further and you might just forget how

You've gotta come back down

You've gotta come back down

All of your wallowing is unbecoming

All of your wallowing is unbecoming

You gotta take it on your own from here

It's getting pathetic and I'm almost done here

You've gotta take it on your own from here

It's getting pathetic and I'm almost done here

All of your wallowing is unbecoming.

All of your wallowing is unbecoming

You've gotta take it on your own from here

It's getting pathetic and I'm almost done here

You've gotta take it on your own from here

It's getting pathetic and I'm almost done here

You've gotta take it on your own from here

Come back down

You've gotta come back down  
You've gotta come back  
You've gotta come back down  
You've gotta come back down

You've gotta come back down  
You've gotta come back down.
