Take Me Away

Sandy Denny

Such sweet love is so hard to find
Look around, these are troublesome times
The sun beats down on our hunger and thirst
It would soon all be over if we let it be worseChorus
Take me away, take me away
Take me away, take me away
If not for you how would I keep going
No one to be near, no good fortune to know
Take my hand, make me feel stronger
You're a man - progress is slow(chorus)There will be rain clouds, for harvest to grow
We'll find the rain clouds, and the rivers will flow
Leave what is past, search for the future
Leave this black dream for it's high time to go
