

Trying to Make It Work Again

Guided By Voices

Spiritual Hercules
Way down on your knees
Going away again
Trying to make it work again
Trying to make it work again
Trying to make it work Turbo Boy (3:11) 1989 Turbo boy
??? fine
Can make his wheels spin
And smash the car Clutch comes in
??? goes in
Leave the keys in the ignition
Just ??? I feel like a long lost ???
On a highway to hell
waiting for a convict waiting on a
Sign of a bell Long words and big black birds
On a telephone wire
She said I'll look over there
There's a car on fire
