

Devil On Both Shoulders

Sons of the Desert

She loves to love me
I love it when she does
When we get together
I feel a bit corrupt When she feels the yearnin'
Then I just let her go
And we're off to somewhere
Way out of control I've got a devil on both of my shoulders
When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart My self-control is at an all-time low
When I hear a voice sayin', "Way to go"
In stereo, I got a devil on both of my shoulders I know it oughta be illegal
For us to have this much fun
And I know my choice between good and evil
But there's a devil on both of my shoulders I've got a devil on both of my shoulders
When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart My self-control is at an all-time low
When I hear a voice sayin', "Way to go"
In stereo, I got a devil on both of my shoulders Caught in the middle
Of the powers that be
When I feel my conscience
Gangin' up on me I've got a devil on both of my shoulders
When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart I love to know, running the show
When I hear a voice sayin', "Way to go"
In stereo, I got a devil on both of my shoulders
I got a devil on both of my shoulders
I got a devil on both of my, both of my shoulders
