## The Pocket Gods

Head is pounding in a daze  
Bruised wrists and your body aches  
If you be mine I'll be your mirror  
Glide inside and pull your trigger  
Violent mind, violent mind, violent mind  
Violent mind, violent mind, violent mind  
I know what you wanna do  
We're on the line  
I know what you wanna do  
You got a violent mind  
I know where you're going to  
Eyes black and wide  
I know where you're going to  
You got a violent mind  
Hedonistic, narcissistic  
Erotic, nihilistic  
Pupils wide gonna slide inside  
Gonna blow your mind  
Violent mind, violent mind, violent mind  
Violent mind, violent mind, violent mind  
I know what you wanna do  
We're on the line  
I know what you wanna do  
You got a violent mind  
I know where you're going to  
Eyes black and wide  
I know what you wanna do  
You got a violent mind  
Violent mind, violent mind, violent mind  
Violent mind, violent mind, violent mind  
I know what you wanna do  
We're on the line  
I know what you wanna do  
You got a violent mind  
I know where you're going to  
Eyes black and wide  
I know what you wanna do  
You got a violent mind  
I know where you're going to  
Eyes black and wide  
I know what you wanna do  
You got a violent mind
