

# Feelin Good

## Blackfoot

I want the view from the top of the hill  
Give me the view from the top of the hill When I think of you  
And your good life  
And your sorrow too  
How much im missing you  
No matter where i go  
Or where I come to stay  
This is waking up  
I want this feeling  
Doors wide open And now i leave it all  
Bags of trouble  
And a messy mind  
Oh I hope I find  
Where your load is light  
Where your hearts at ease  
This is waking up  
And feeling good feeling good Hey im making my mistakes  
Cause Im no great shakes at being perfect  
I just take my breaks and work it  
Bring it to the surface  
Like a scuba diver  
Never nervous  
Cause now im older and wiser  
An Ive a bold feelin  
This old skin is peelin  
Revealing a new layer  
Im no soothsayer  
But I feel its time to leave  
To polish my heart with the other sleeve I want the view from the top of the hill  
Give me the view from the top of the hill  
I want the view from the top of the hill  
Give me the view from the top of the hill And feeling good feeling good
