

This Is Home

Connie Talbot

Move, move moving on
Grow, grow growing up
It's time to face the truth
Don't think of it as a dawn that shines I just need to say
Before you go away This is home It's made of us,
Not the bricks but love and trust
Time has come and change we must,
We are the heart and not the dust. We won't let go go go Try, try, trying hard,
To make sense of where you are
You're only 3 miles down the road,
But you're not away my Mollie Rose I just need to say
Before you go away This is home It's made of us,
Not the bricks but love and trust
Time has come and change we must,
We're the heart we're not the dust
You're in our blood, you'll never fade
Though I'll miss you let's celebrate
The times we shared they'll still remain
You've got a whole new life to make But don't let go go go go
You have to go go go go
We won't let go go go go You're in our blood, you'll never fade
Though I'll miss you let's celebrate This is home It's made of us,
Not of bricks but love and trust
Time has come and change we must, We are the heart and not the dust
You're in our blood, you'll never fade
Though we miss you let's celebrate
The times we shared they'll still remain
You've got a whole new life to make. But don't let go go go go
You have to go go go go
We won't let go go go go
