Black Swan

The Struts

I was a boy from the hills
I ran so much before she came
Then I saw you, we grew together
You were just the sameWe fell in love oh so desperately
Against your families will
We planned to run away
She said to meet me at night on the hill"They'll never find us" is what she said
We could have made it out but
In the night they sold her lifeNow there's nothing more than this
A lonely sky amongst the mist
Now you're gone
My black swanI know there's nothing left to say
But if you ever fly my way
Sing your song
Now you're gone
Love's so strong
My black swanI may have said the case was a mystery
The joy has set them free
Now the town sails my history
To a place no one should beYou did the crime that's what they say
I wish I could clear my name from
That dark night they stole her lightNow there's nothing more than this
A lonely sky amongst the mist
Now you're gone
My black swanI know there's nothing left to say
But if you ever fly my way
Sing your song
Now you're gone
Love's so strong
My black swan"They'll never find us" is what she said
We could have made it out but
In the night they sold her lifeYou did the crime that's what they say
I wish I could clear my name from
That dark night they stole her lightNow there's nothing more than this
A lonely sky amongst the mist
Now you're gone
My black swanI know there's nothing left to say
But if you ever fly my way
Sing your song

Now you're gone
Love so strong
My black swanMy black swan
My black swan
