Darky

(Hed) P. E.

Give it up smooth
Stick then I move
Tryin' to make sense outta of nonsense
Fool

Trippin' on life and my situation
Brothers of earth
One love-one & 1 nation
I hear the voices callin' me

The choices I made were mine
And I don't mind
I rise to the top like cream
Like the Phoenix from the blunt ash

Realizin' my dreams
Kissin' the pacific sky
The purple haze brain remain open
To changin' tides

I desire knowledge by nature
Word to Aristotle
My nature's not to hate ya
So I try to put myself in the Chucks of the other man

Peace to my brother
Search out my pace in this
World I discover man
Damn, check out the colors man

My eyes are man
My eyes are opening wide
My eyes are open
I see it everyday

But some things never change-no
Some people livin' in fear
Not knowin' about the ten dimensions
The (hed) nigga reach the point of awakening

I annihilate nigga who be thinkin' that they can break me
The next brother can do what they want to
This brother's sites are wide and true
If a stupid punk sweat me

The trick ass bitch'll wish
He never met me
So be warned my scorn is what you saw there
Be down or be gone

Let's get it on there
Turn of the century
Age of the microwave
One foot on the moon

But, you can see it gettin' better
Believe it
Young people sayin' "they ain't havin' it"
So? they takin'

They breakin's
They tired of the status quo
Fittin' to rape yo'
Their eyes are open

The windows are wide and far
So what the f...
Where you goin'
Where you been

Where you at
If I drop the bomb
Pick it up...
That sexy little girl

She had no father figure
The Catholic skirt
Put a hurtin' on the father's *?$*#
Table dances-they don't cum cheap

Dee-eye-see-kaye
Spells "relief"
Bring all your daughter to me
I was a just kid

I was just living

It never occurred to me that
Skin could determine identity
I was naive you see

Don't givaf...
Never did never will
My eyes are open wide
Pack skillz then move in for the kill
