## You Can Get By (LP/12" Version)

## Chic

You can get by if you try
You can get by if you trySomewhere in the city
There's someone for you

Marke in some decryory

Maybe in some doorway

You know love begins there tool know it's a pity

To be so all alone

The bed seems so empty

And not a ring from the phone You can get by if you try

You can get by if you try

You can get by if you try

You can get by if you tryYou may not be pretty

Oh but you can be, you know

Take off those shabby clothes, girl

And let your beauty show

Make yourself a lovely woman

And get yourself a man

Then you will be happy

You can do it, yes you can, hey heyYou can get by if you try

You can get by if you try You can get by if you try You can get by if you try You can get by if you try You can get by if you try
