

Just a Day

[Lena Katina](#)

Drift away, watchin' the sun slowly fade
Catch a break, wait for the moon to awake
They say you won't be happy 'till you own the world
Tell you now "I feel pretty close to having it all"
Having it all...Say it's never too late
Just take the runway
I'll be your flightmate
I'm gliding high
Don't ever stop reaching
Keep the horizon wide
And flyFading out, you're lost in the darkness inside
Turn it down, there's not a cloud in the sky
Slowly all the pieces fall into place
And in time you will know how, you'll get your own way
Your own way...Say it's never too late
Just take the runway
I'll be your flightmate
I'm gliding high
Don't ever stop reaching
Keep the horizon wide
And flySometimes it kills, you have to find a way
Step outside yourself
Leaving all the chains that bind you
For a year, a month, a week or just a daySay it's never too late
Just take the runway
I'll be your flight mate
I'm gliding high
Don't ever stop reaching
Keep the horizon wide
And fly
