

# I Would Do Anything for You

Stevie B

If you dare to leave me, make you move  
The passion is something I could use  
But to every heart there is a way  
Given a chance I know you'll stay  
Something inside has possessed me  
I won't let it be just a fantasy  
What will it take to show you  
And what can I say or do

For you  
I would do anything for you  
Give me a chance to be with you  
Tell me what you want  
And I can be dedicated  
You don't know how long I've waited for you  
Someone special has come my way and she's you  
Girl you stole my heart, you know it too  
You won't have no regrets if you come with me  
'Cause there is oh so much to see  
Something inside has possessed me  
I won't let it be just a fantasy  
What will it take to show you  
And what can I say or do

Tell me what you want  
For you, I would do anything, do anything

Girl, give me a chance of a lifetime  
I promise you I won't be unkind  
Just what will it take, just for me to show you  
And what can I say or do for you, for you

For you, for you  
Tell me what you want  
For you
