

# Place Your Love

Roxette

Sunday sick o' my tears  
Monday mornin' I could've felt much better  
Tuesday you're in my way  
I wish you would type my heart a letter Place your love in my world  
It's for you, it's made for you  
I need time, a lot of time  
To get you off my mind  
To get you off my mind Wednesday nothin's okay  
Thursday afternoon I wish I was sleepin'  
Friday and Saturday sun  
Gettin' up early but I can't get nothin' done Place your love in my world  
It's for you, it's all made for you  
I need time, a lot of time  
(I need time)  
To get you off my mind  
To get you off my mind, yeah Maybe you'll come here, maybe you'll disappear  
Maybe the clouds I fear will turn to flowers in the air  
These cool vibrations they're hitting me all the time  
You've got me diggin' and divin' in the garden of my mind  
(Of my mind) Friday and Saturday sun Place your love in my world  
(Place your love)  
It's for you, it's all made for you  
I need time, a lot of time  
(I need time)  
To get you off my mind It's a high to watch you fly  
(It's a high)  
Across the sky all the time  
To watch you all the time
