

Until One Day

J Boog

So so so incredible
well how we planned life out.
you have my heart, girl i have yours.
no room for complication just my appreciation for you.
and girl i love the way your body fits mine.
just a daily dose of your love i need the most.
i need your love olove love.

until one day
you will start to realize you'll always forever be mine
until one day
for all time
until one day, one day
you will start to realize you'll always forever be mine
until one day
for all time

what, what IS all of this nonsense that just came out of the blue?
feelings far away from each other
you blame me i blame you
oh, we dont listen to every word we,
thats why we always brake up to make up now baby
no no no more, no no no more, no
dont need no more pain in our lives
no no no more,no no nomore
I need your love olove love

CHORUS

look in the door.
you know we had some tough times before.
but there is nothing that this love can not cure.
we've got wisdom, and trials and tribulations.
have to step up face to face when you wanna say some
see, i know you like no body else from right and forward.
my one and only, mine-o my my superstar.
girl just put your trust in me
you will forever be my baby
