# Women

## The Blue Devils

Women, can't live with 'em
And somehow you can't ever live without
Women, can't understand 'em
But tryin' to is what makes the world go 'round
I've made a sad one laugh and I've made a good one cry
I've made one scream my name to the good Lord by and by
I've made 'em go insane and I've made 'em go away
Just can't ever seem to make one stay
Women, they're all crazy
Some hide it well and some just let it show
Women, take it from me
I've been around enough of them to know
I've made a sad one laugh and I've made a bad one cry
I've made one scream my name to the good Lord by and by
I've made 'em go insane and I've made 'em go away
I just can't ever seem to make one stay
Women, ain't no winnin'
When all they want to do is fuss and fight
Women, keep our heads spinnin'
But with any luck I'll take one home tonight
