

Cold December (Album Version)

[Matt Costa](#)

I've been waiting, pacing along the halls ever since you left here
I've been cleaning, scrubbing the plates and weeding out the garden dear
I can't fall asleep to your mystery slowly blowing from the shore
I have not failed to be what you'd expect of me
Swallowing glass just to stay pure All the birds are heading down south but you're staying up north you say
I've got jackets blankets and sheets, its going to be a cold December It could be warm you see, a statue next to
me
Swimming away from the ice and snow
Could I have failed to see the signs in front of me
Warning and flashing symbols, subtle and simple I couldn't see
I couldn't see If only time could slow down, maybe I could come up
It's such a cold December
It's such a cold December
Its so cold I can't fall asleep to your mystery slowly blowing from the shore
I have not failed to be what you'd expect of me
Swallowing glass just to stay pure Summers come and summer has gone
Your Christmas cards can't comfort me
You've found new friends and tied all the ends
It's freezing in the loneliest winter It could be warm you see, a statue next to me
Swimming away from the ice and snow
Could I have failed to see the signs in front of me
Warning and flashing symbols, subtle and simple I couldnt see
I couldn't see If only time could slow down, then maybe I could come up
It's such a cold December
It's such a cold December
It's so cold
