

# Our Lives

## August Moon

You spend every night, sheltered by watchful eyes  
As void sleeps by your side  
Restrained and deprived, you waste all your time  
Craving just once to live your lifeChorus:  
Let's take this, escape this  
Live it up, spirit up, and don't stop  
Let's take this  
Let's live our livesLet's chase it, embrace it  
Start it up, speed it up, and don't stop  
Let's chase it  
Let's live our lives(Our lives)Some say, we're the face of the bodies that make mistakes  
Hunted by hands that claim our soul  
All we want is exploration  
All we want is lifeChorus(Our lives)
