Charlie Brown

Jared Evan

I get up too late, and i head to the classroom
I'm wondering why i'm wasting my time, losing my mind
Every day at school they all laugh at me
They say charlie brown you're such a tragedy
Picking on me in the parking lot
Just swallow your pride don't cough it upSo i tell them hit the road
What you coming at me for
To all the people that hear me
You could win the fight
But no matter where the wind blows
Nothing ever goes my way
Oh-wooooNo they won't stop chasing me anyway,anyway
And this black cloud, follows me everyday,everyday
But i won't be my own worst enemy,enemy
And bring me down, i'm charlie brown,ohh
La-la-la-la-la
La-la-la
La-la-la-la-la
La-la-laThe kid is an outcast,always kicked out class
They,they pointing fingers and say ,how will he outlast
Inconsiderate, the teacher's very omnipotent
They say that kid's a problem
Where the fuck is his ritalin
Again and again i be stuck in these incidents
If hatred is the proof i can show you the evidence
And that's the type of world that all these kids is living in
So how could i get facts when they all know where the give it isSo i tell them hit the road
What they coming at me for
To all the people that hear me
You could win the fight
But no matter where the wind blows
Nothing ever goes my way
Oh-wooooNo they won't stop chasing me anyway,anyway
And this black cloud, follows me everyday,everyday
But i won't be my own worst enemy,enemy
And bring me down, i'm charlie brown,ohh
La-la-la-la-la
La-la-la
La-la-la-la-la

La-la-laNo they won't stop chasing me anyway,anyway
And this black cloud, follows me everyday,everyday
But i won't be my own worst enemy,enemy
And bring me down, i'm charlie brown,ohhNice try charlie brown
