

Get Gone

White Arrows

Don't forget to tell yourself
Look inside of you and no one else
No one even cares about your health
Just ask my mom
She's doing well
Oh
Come inside and have a drink
I don't even know
I just can't think
I just ask myself If i'm dead wrong
If you say nothing you best get gone
Get get gone
Well pa pa papa said go on out and get stomping
And ma ma mama said stay at home and do nothing
It made it hard to get going
I told myself I was going strong
Mama said I ain't got no home
get get gone
Stay out side and don't forget your slippers
Up in the night sky you can see the big dipper
The time has come for you to make the change
Go on now till they know your name
Well pa pa papa said go on out and get stomping
And ma ma mama said stay at home and do nothing
It made it hard to get going
I told my self I was going strong
Mama said I ain't got no home
Get get gone
