

B.o.o.t.

Pepper

So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this townSo lock it up, lock it up
Because we're on our way now
And if we see one light on
This town is going downNow do you see what I see?
This place is looking so very tasty
And I think I smell, yes, I smell
A golden opportunitySo when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or notSo when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or notSo here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this townSo here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this townSo here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
Blew out of this townSo here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this townI don't know how far we came
But it's time to leave
That's always a shame
The pleasure was all mine if it's all the sameWe're on the road you see
We're not on MTV
But when we get there
We won't shave our hair or be fags like CreedSo when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or notSo when the dance gets hot
Don't look for reasons, why not?
Come on in it's time to begin
Whether you're ready or notSo here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this townSo here I go with the bass line low
Yeah, and there's nothing you can do

We blew out of this town
Blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
Blew out of this town So here I go with the bass line low
Yeah, and there's nothing you can do
We blew out of this town
