Nebraska

Bowling for Soup

It seems like I should know better I guess I don't know much When I'm alone I'm everything But I'm not well beneath it allStop staring over my shoulder Just let me breathe in peace now Cause all I ask for is a....dateOne date to shine One date to leave it all behind One date, yea! One date to myself Whoa, whoa, whoa, whoaIt seems like I should know better I guess I don't know much When I'm alone I'm everything But I'm not well beneath it allStop staring over my shoulder Just let me breathe in peace now Cause all I ask for is a....One date to shine One date to leave it all behind One date, yea! One date to myself Whoa, whoa, whoaOne date to shine One date to leave it all behind One date, yea, yea, yea! One date to myself Whoa, whoa, whoa, whoa
