Rust

Fuzzion

Living, fighting, obsessing

Just as long as I can share it all with you

Yesterday, today, tomorrow, come rain, come shine

Hell and back, the beginning in between till the end of timeAll that shines turns to rust

All that stands in time turns to dustAs above, so below

But you ain't no fool and honey, I'm damn sure that you know

Yesterday, today, tomorrow, come rain, come shine

Hell and back, the beginning in between till the end of timeAll that shines turns to rust

All that stands in time turns to rust
