

All the Ways Love Can Feel

Maxwell

I see ya face, you see my face
A thousand races into space
Universal law never makes mistakes
Baby you know, I just want to live and
Do what I can to be my best
Nevertheless, never settle for less
Higher I go, I'm never quenched
Even though life never goes so right
Do what you feelOoh
All the ways that
All the ways that
All the ways that
Love can feel
All the ways that
Love can rise above
I know you can heal me
I know you can hear me
All the ways
All the ways
Class is in session tonight
Show me the lessons of your life
All the ways that love can feel aliveI see ya face, you see my face
A thousand races into space
Universal law never makes mistakes
Baby you know, I just want to live and
Do what you feel
Ohh uhAll the ways that
All the ways that
All the ways that
Love can feel
All the ways that
Love can rise above
I know you can heal me
I know you can hear me
All the ways
All the ways
Class is in session tonight
Show me the lessons of your life

All the ways that love can feel alive
