Lights on Me

Pete Bernhard

Lights On Me
By Pete BernhardGotta problem here or am I mistaken?
Lord's gone to sleep and the Devil is forsaken
Got a problem here just as heavy as stone
Look what we done here on our own
Well
We sing a lonesome song
We been gone for so long
When the light shines down you see
And all the breath in your body leaves
This ain't the last life you will leadIt's destinyThe hunger for anger and thirst for riches
Handful 'a angels a handful of witches
Surrounded by miles of mud filled ditches
What are these shadows that my mind dismisses
Well
We sing a lonesome song
We been lost for so longWhen the light shines down you see
And all the blood in our bodies leavesAnd it's the last sight we will see
We'll be free
This is a story we all know by heart
This is the end this is the start
We wanna move like the birds in flight
Not to wander on this road all night
Well
Why do we sing this lonesome song
We been lost for so long
Are we nothing but flesh and bone
Cursed to wander doomed to roam
No matter where I'm headed I'm goin home
Well
When the light shines down you see
And all the breath in this body leaves
When the light shines down you see
And all the blood in this body leaves
This ain't the last life I will lead
I'll be free
I'll be free
