Should Never

Natasha

Ey, that's it, ey, that's it, ey, that's it
It's your boy, Da Vill

[Verse 1: Da Vill]
Ey, shorty lean back
Girl, green's back
Think about you said cause you might not mean that
With you I was so up in it
Getting louder, get up in it
Tell what you want to do with you (with you)
I was tryna make major move
I let you in my heart, too
Don't get amnesia on my, boo
Cops you reigns, cops you jewels (ey)
You and me, with this girl be sayin
She want me to be your man
Working out, working late
Get to the crib and you just hate

[Verse 2:]
Never should let you tell me
You were never gonna leave
No never
That you were gonna be there only
The only one for me forever
You said you wanted me but baby
I saw you on the side with another
I loved you but you can't expect me to forget

[Chorus: Natasha]
I can't keep forgiving you for all you do
For leaving me
All the times I waited up for you almost every night
You never noticed me
I should known much better
I should never let you be my man, baby
I should never let you hold my hand (now I know that)
I should never given you a chance, baby
I should never let you [x3]

You never gave a damn

[Verse 3:]
Said you never let me be lonely
When I waited all alone but how we were
Told me so many things about the way
We were gonna be so spectacular
Never should let you step to me
I should known much better than to be with ya
It doesn't matter the least you do
Apologized

[Chorus: Natasha]
I can't keep forgiving you for all you do
For leaving me
All the times I waited up for you almost every night
You never noticed me
I should known much better
I should never let you be my man, baby
I should never let you hold my hand (now I know that)
I should never given you a chance, baby
I should never let you [x3]
You never gave a damn

[Hook:]
Did you ever think about me
Everything you expected me to be
Everything you did to me
No, you never gave a damn
I was running around fussing
Tryin not to think, to care
Thought you changed
Did you ever think about me
No, you never gave a damn
I wanted you to think I was gonna be okay
While you were playing me, c'mon get serious

[Ending:]
No, you never gave a damn
No, it didn't have to be this way with me
Stop turning away, you're the one for me
You never, you never
You never gave a damn about me, babe
Boy, you never gave a damn about me, babe
No, you never gave a damn about me, babe

About me, babe
No, you never gave a damn about me, babe
About me baby
No, you bever gave a damn
I should never let you be my man, baby
I should never let you hold my hand (now I know that)
I should never given you a chance, baby
I should never let you [x3]
You never gave a damn [x3]
