

# Rain

## 40 Below Summer

It's cold, it's hard and I'm locked inside this  
I've gone too far, I can't rectify this  
I walk away falling into  
It's such a shame how I'll miss you I feel shot, can you reach me?  
You cannot bring me back  
And I'll always sink into nothing  
And I'm on my knees again  
And I can't believe that it's always  
Under my skin Don't leave me out, leave me hanging  
Don't keep me down, down and dragging  
You're so sure that I won't splinter  
You're so good, you're so good Shift time to come back in line  
Cause when I tried to embrace my life  
Gonna dry up was it something you're fed  
Got you sickened was it something I said  
All it did was rain
