

Serious As a Heart Attack

Johnny Winter

Hear me talking to ya, baby
I'm serious as a heart attack
If you don't stop the things you're doin'
I'm gonna turn your blue eyes black You never stay at home
And you keep your business in the street
You don't do no dirty clothes
And there's never nothin' here to eat Well girl, this love affair
Is pretty close to ruin
Every time I try and do ya, oh
You say nothin' doin' You never stay at home
And you keep your business in the street
You don't do no dirty clothes
And there's never nothin' here to eat You're the kind of woman
Would feel right at home in hell
Ya stick me with a pitchfork
Just to hear me yell You never stay at home
And you keep your business in the street
You don't do no dirty clothes
And there's never nothin' here to eat
